- Bus Agents
- Help Desk
- Call Centre

Brief Introduction on CDMS (Centralise Data Base Management System) :-

CDMS Solution provided to the Corporations to have a Common Data Base Management System to the Corporation to have a Common Master Data Base for all IT Initiatives.

Advantages of Common Master Data Base:-

- 📍 Real Time Bus Inventory updates
- 📍 Easy in identifying the geographical presence of Place & Pick up Points
- 📍 Common Fare generation for across all the Systems (ETM, OPRS,GPS & Manual Ticket Inventory)
- 📍 With Common Master Data Base its easy & seamless for Hand Shaking among all the IT Initiatives

Advantageous of Rad-POS Devices

Radiant OPRS has dedicated ANDROID APP for the GPRS & GPS enabled POS & KIOSKS

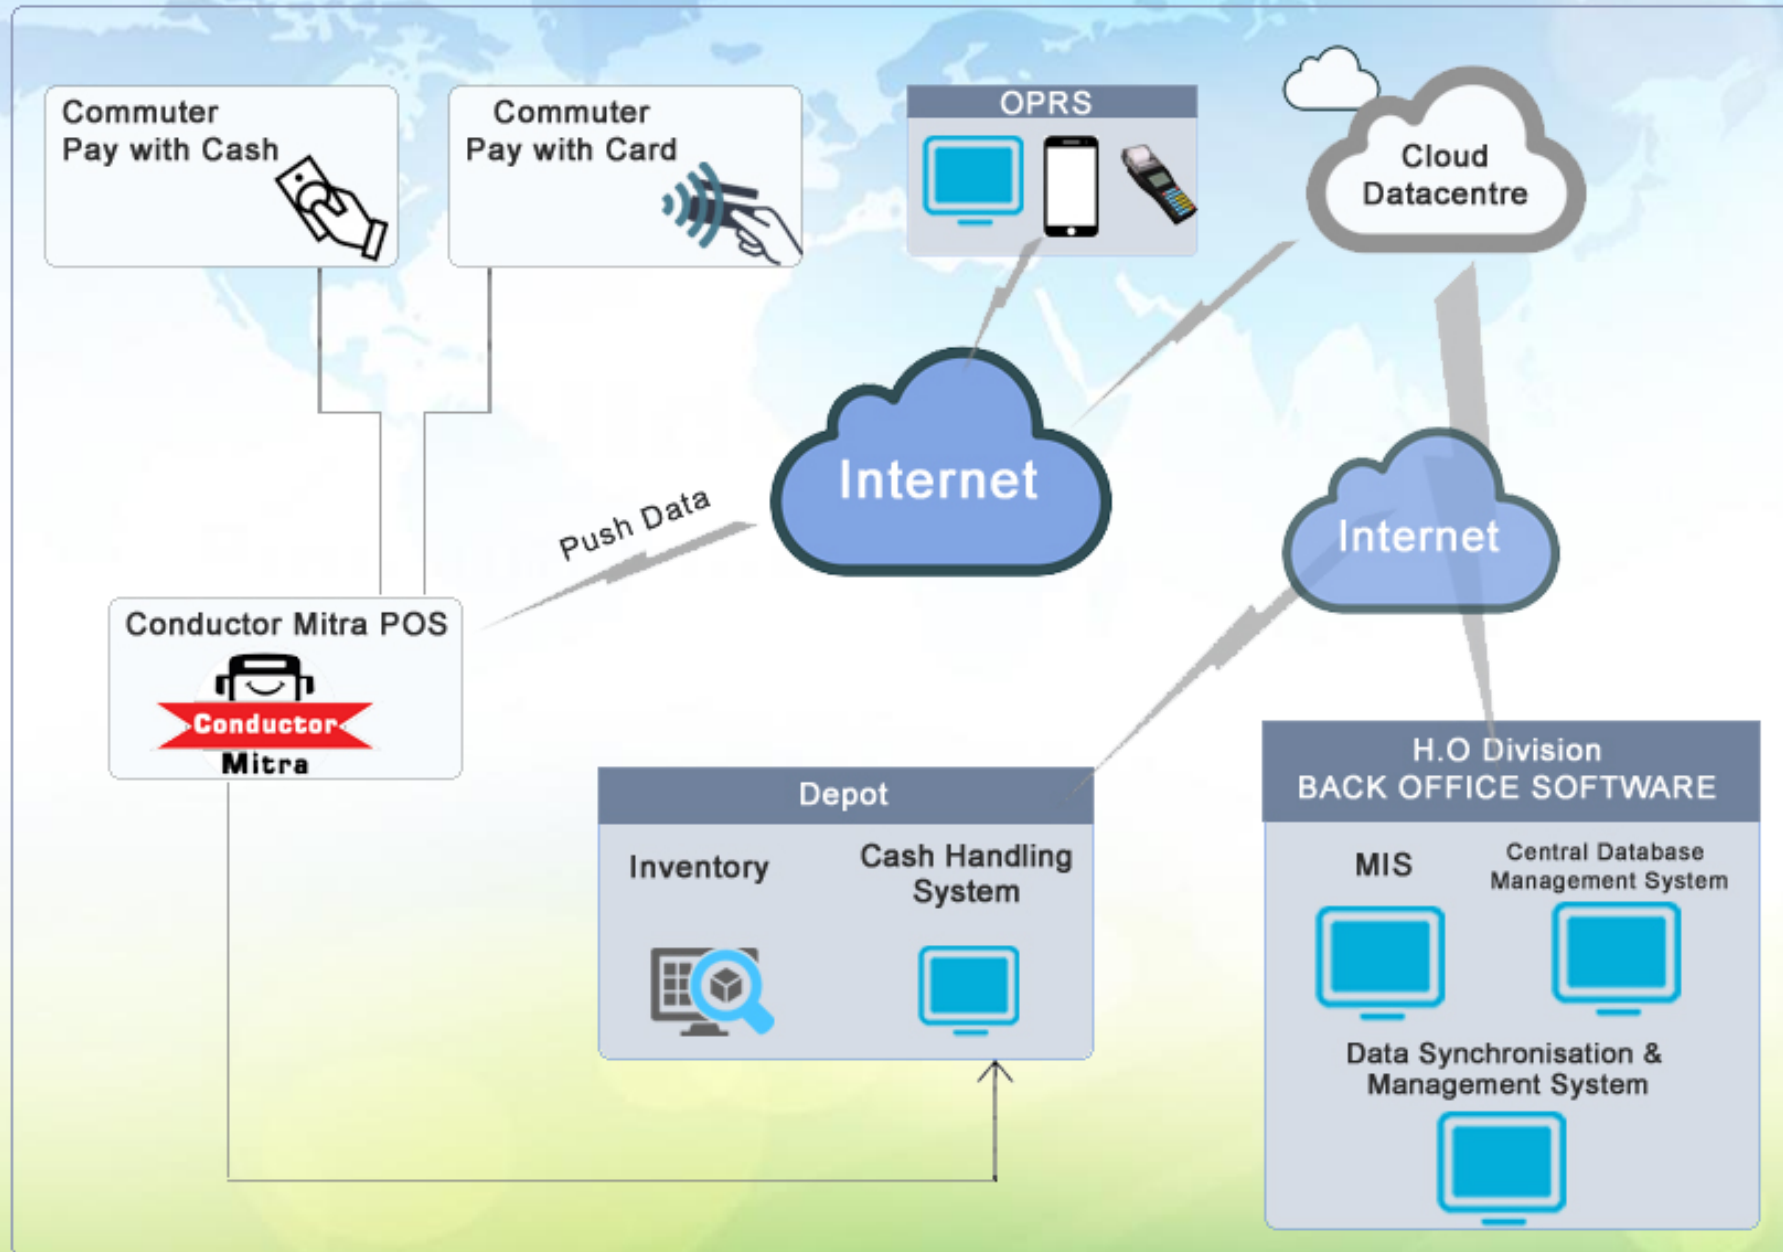

POS APP, for RTC Counter Operation (Replacement of Computers & its accessories)

POS APP, for RTC Franchisee

POS APP, for Inside Bus Conductor Operations

- 📍 **Handheld POS are easy to handle**
- 📍 **POS are easily integrate with OPRS so its easy to manage the Current & On Route Booking thus it optimises the bookings and occupancy in Buses**
- 📍 **POS has very negligible real estate & capital & operational expenses**

Concept Architecture

Radiant OPRS -Technical Solution Overview

- 📍 Open standards (J2EE, MDA, Web Services) technology and
- 📍 Open source (Eclipse and Linux) components
- 📍 Data Base : MYSQL, DB2 & Oracle
- 📍 N-tier J2EE architecture
- 📍 Loosely coupled Web Services based SOA with BPEL4WS
- 📍 Open source / Enterprise Software and hardware technology components
- 📍 Three ways security solution covering firewall, role based user authentication and authorization, PKI
- 📍 High availability, reliability, flexibility, interoperable, secured, maintainable, manageable, optimized and scalable architecture
- 📍 Complaint to National e-Governance Data Standards Definition, metadata framework and operational specifications.
- 📍 Compliant to Open Travel Alliance specifications
